15 | ALD Automotive Group rewarded DECEMBER with a B by CDP 2020

We are happy to announce that the CDP (Carbon Disclosure Project) has attributed our company with a "B" rating for our environmental transparency and actions in 2020! This rating is higher than the European regional average of C, the rental and leasing sector of C and our competitors.

Our Group rating recognizes our constant commitment to fighting climate change. Our new strategic plan Move2025 has set ambitious environmental targets for 2025, including reducing CO2 emissions for new contracts by 40% and our internal carbon footprint by 30% (vs. 2019).

CDP is a non-profit organization that runs the global disclosure system for investors, companies, cities, states and regions to manage their environmental impacts. It is a widely recognized standard of environmental reporting with a comprehensive dataset on corporate and city action.

ALD will continue to submit (and hopefully, improve further!) next year. To be continued!
